

1. General Statement

Substance is obtained by treating phosphate rock with sulfuric acid or a mixture of sulfuric and phosphoric acids. Composed primarily of calcium phosphates and calcium sulfate. It does not mix well with water. It causes serious eye damage.

2. Chemical identity

Name : Superphosphates
 CAS number(s) : 8011-76-5
 EC number : 232-379-5
 Molecular formula : $\text{CaH}_6\text{O}_8\text{P}_2+2$
 Structure :

3. Uses and Benefits

This substance is used in fertilizers and pH regulators and water treatment products.

4. Physical / chemical properties

Property	Value
Physical state :	Solid
Colour :	Grey
Odour :	No data available
pH :	No data available
Melting point	No data available

GPS Safety Summary

Single Super Phosphate

CL-4: PUBLIC

Boiling point :	No data available
Flash point :	No applicable
Density :	2.41 g/cm ³ Type: 'density' Temp.: 20 °C
Solubility in Water:	Insoluble

5. Health Effects

Effect Assessment	Result
Acute toxicity (Oral / inhalation / dermal)	No
Irritation / corrosion Skin / eye/ respiratory tract	Causes serious eye damage.
Respiratory or skin sensitisation	No
Toxicity after repeated exposure Oral / inhalation / dermal	No
Genotoxicity / Mutagenicity	No
Carcinogenicity	No
Toxicity for reproduction	No

6. Environmental Effects

Effect Assessment	Result
Aquatic toxicity	No
Fate and behaviour	Result
Persistence and degradability	No data available
Bioaccumulative potential	No data available

7. Exposure

Human health

The substance causes serious eye damage. The most likely route of human exposure (workers) is through skin. In industrial settings, ingestion is not an anticipated route of exposure. Workers may be exposed during (un)loading, mixing, sampling, analysis or maintenance operations and particularly in case of batch processes. The exposure must be kept as minimum as possible by the use of appropriate risk management measures as suitable collective and personal protective equipment, good industrial hygiene practices and risk communication through appropriate training of workers.

GPS Safety Summary

Single Super Phosphate

CL-4: PUBLIC

Careless handling or accidental spillage of the chemical could result in exposure to potentially hazardous levels of chemicals.

Industrial workers should ensure that they follow the advice found in the extended safety data sheet (SDS).

Environment

The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. Care should be taken to avoid releases of these products to sewage, drainage systems and water bodies. Spillage shall be quickly collected in the event of an accidental release. More information about release measures and accidental release measures are available in the extended safety data sheet.

8. Risk Management Recommendations

Human health measures

Organizational	A basic standard of occupational hygiene is recommended. Ensure operatives are well informed of the hazards and trained to minimize exposures. Ensure regular inspection and maintenance of equipment and machines. Handle and store according to the indications of the Safety Data Sheet.	
Protection	Eye protection:	Safety glasses
	Skin and body protection:	Wear suitable protective clothing (Avoid inhalation or skin/eye contact)
	Respiratory protection:	High concentration or prolonged activity: self contained breathing apparatus. In the case of vapor formation: use a respirator with an approved filter
Engineering controls	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.Ensure good ventilation of the work station.	
Environment protective measures		
Product must not be released into water without pre-treatment.		

9. First-aid measures

First-aid measures after inhalation : Remove people to fresh air and keep them comfortable for breathing.

First-aid measures after skin contact : Wash skin with plenty of water.

First-aid measures after eye contact : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician immediately.

First-aid measures after ingestion : Call a poison center or a doctor if you feel unwell.

10. Fire-fighting measures

Extinguishing media

Suitable extinguishing media : Water spray. Dry powder. Foam.

Unsuitable extinguishing media : Do not use a heavy water stream.

Special hazards arising from the substance or mixture

Hazardous decomposition products in case of fire : Toxic fumes may be released.

Advice for firefighters

Precautionary measures fire : Eliminate all ignition sources if safe to do so. Keep the container closed when not in use. Keep the container tightly closed and away from heat, sparks and flame.

Firefighting instructions : Fight fire from safe distance and protected location. Do not enter fire area without proper protective equipment, including respiratory protection.

11. Accidental release measures

Protective equipment : Wear Safety glasses. Self-contained breathing apparatus. Total impervious protective suits, gloves and boots must be worn to prevent any contact with the product. Wear recommended personal protective equipment.

Environmental precautions: Avoid release to the environment.

For containment : Using a clean shovel, put the material in a dry container and cover without compressing it.

12. Disposal consideration

Regional legislation (waste) : Disposal must be done according to official regulations.

Waste treatment methods : Dispose of contents/container in accordance with licensed collector's sorting instructions.

Sewage disposal recommendations : Disposal must be done according to official regulations.

13. Handling and storage

Precautions for safe handling : Ensure good ventilation of the work station. Avoid contact with skin and eyes. Wear personal protective equipment.

Hygiene measures : Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Remove contaminated clothes. Wear personal protective equipment.

GPS Safety Summary

Single Super Phosphate

CL-4: PUBLIC

14. Classification and Labeling

Hazard pictograms (CLP)

GHS05

Signal word (CLP)

: Danger

Hazard statements (CLP)

: H318 - Causes serious eye damage.

Precautionary statements (CLP)

: P280 - Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTER or doctor.

15. Conclusion

Substance causes serious eye damage. The product is not considered harmful to aquatic organisms. Avoid contact with skin and eyes & wear personal protective equipment. Wash out immediately with fresh running water
